

## Does your staff need full featured access to Activities through the iMIS<sup>15</sup> web view?

wvActivity is part of the wvSuite, a set of iParts created by RSM McGladrey to allow your staff to use the standard iMIS<sup>15</sup> browser web view to perform daily functions.

In most organizations, staff need to create activities as part of their normal job. wvActivity allows your casual and full users to view, add and edit activities via the web view, just like the desktop version of iMIS<sup>15</sup>.

Activity Type	Product Code	Tran Date	Description	Note	Thru Date	Amount	Units
<input type="text" value="DUES"/>		<input type="text" value="5/6/2010"/>			<input type="text" value="12/31/2010"/>	<input type="text" value="150"/>	<input type="text" value="0.00"/>

The screenshot shows a web form titled "Activity". It contains several input fields: "Type" (a dropdown menu with "DUES" selected), "Date" (a text box with "5/6/2010" and a calendar icon), "Effective" (a text box with "1/1/2010" and a calendar icon), "Thru" (a text box with "12/31/2010" and a calendar icon), "Type" (a text box with "DUES"), "Note" (a large text area), and "Amount" (a text box with "150.00"). At the bottom right, there are three buttons: "Save", "Cancel", and "Delete".
